Why the Targeted Sector Support (TSS) Funding Grant Matters

Municipalities often face resource constraints, administrative hurdles, and governance complexities for starting new or costly initiatives beyond normal operations of the municipality. **Targeted Sector Support (TSS) Grant Funding** directly addresses these issues by reviewing applications to fund **75% of these costs** with the intent to:

- **Encourage Inter-Community Collaboration:** Projects must involve at least one partner municipality or community, fostering regional unity and shared solutions.
- **Enhance Governance and Capacity:** Funding supports training, restructuring, and strategic planning that elevates municipal leadership and administration.
- **Drive Innovation in Service Delivery:** From emergency management plans to regional land use strategies, TSS-funded projects improve efficiency and responsiveness.

Each project can receive up to **75% of eligible costs, capped at \$100,000 maximum funding**, making it a high-impact, low-barrier opportunity for municipalities to innovate and grow.

TSS is a portion of Municipal Revenue Sharing (\$1.5 million per fiscal year) used to encourage inter-community collaboration, help build capacity and promote good governance in all Saskatchewan municipalities. The funds are used to support projects that help municipalities strengthen their core governance and administration responsibilities

The TSS Steering Committee is now accepting applications for funding under this program. **Applications are accepted at any time of the year and will be reviewed on a monthly basis.**

Please view the [intake guide](#) for details on the TSS initiative, project eligibility, and the application process. The online application portal can be accessed [here](#).
