Reminder: Access to SUMA Member Portal

The **SUMA Member Portal** hosts valuable resources for members including meeting recordings, webinars, and more.

Each municipality has one shared login for the Member Portal that should be distributed to all staff and members of council. Please contact your Chief Administrative Officer for access. We encourage you to revisit or share previous webinars, Board and Caucus meeting minutes, and other relevant information with other staff or elected officials.

If you are unsure of your login information, please contact communications2@suma.org for assistance.

Survey: Impact of Tariffs in Saskatchewan Urban Municipalities

U.S. tariffs and Canadian counter-tariffs are affecting urban municipalities across Saskatchewan—from the rising costs of materials to build and maintain infrastructure to impacts on small businesses in our communities.

SUMA is looking to hear from our members about the impact tariffs are having in your communities, including what you are already experiencing and any anticipated costs you will face. **We are looking for concrete examples of how the new 50% U.S. Section 338 tariffs will affect urban municipalities.**

By completing this survey, you will help shape our advocacy to ensure municipalities remain resilient in the face of international trade disputes. **The survey will take 5-10 minutes to complete and is open until September 28.**

Thank you in advance for your feedback.

Complete the survey [here](#).

SUMA Board of Directors Complete Fall Quarterly Meeting

Last week, the **SUMA Board of Directors** gathered for their quarterly meeting.

Robust discussions were held around the continued implementation of our new caucus structure, including the role of caucuses in advocacy, and the preliminary budget for 2027 fiscal year was approved.

Watch for the upcoming issue of Governance Update for more updates from the Board and caucuses.

Share Your Experience with Airport Runway Extensions

SUMA is looking to hear from communities with airports that have been in contact with officials from the Ministry of Highways and/or Ministry of SaskBuilds and Procurement in regards to the upgrading of the air ambulance fleet. There have been concerns that upgrading to larger airplanes may require extensions of some runways across the province. While nothing has been confirmed to date, we are looking to hear from individual communities regarding their experience.

Please contact Dustin Austman, Advocacy Advisor, at advocacy3@suma.org or 306-525-4321.

Seeking Feedback: Amendments to the *Planning and Development Act*

The Ministry of Government Relations is considering potential amendments to the ***Planning and Development Act*** and is inviting input over the coming weeks and months. The Ministry is seeking to further explore the following planning and development-related matters:

- Timelines
- Fee bylaws
- Enforcement
- Contract zoning
- General amendments that improve the clarity and efficiency of the legislation

If you would like to ensure your municipality's feedback is incorporated, please contact Dustin Austman, Advocacy Advisor, at advocacy3@suma.org or 306-525-4321.

Western Canadian Municipal Associations Advocates to Update the 2019 Western Economic Solutions Taskforce Report

Western Canadian Municipal Associations (WCMA)—which includes SUMA—has submitted a letter calling on the **Federation of Canadian Municipalities (FCM)** to revisit and update the **2019 Western Economic Solutions Taskforce (WEST)** report.

The WEST report provided an important western perspective on issues including economic diversification and innovation, trade-enabling infrastructure and transportation corridors, rural and northern sustainability, workforce development, climate resilience and responsible resource development, and stronger partnerships among orders of government.

These priorities remain relevant and western communities are central to achieving these objectives, but the circumstances facing Canada have changed significantly since 2019. A review of the WEST report and continued engagement with the WCMA will help ensure western Canadian municipal perspectives and priorities shape an effective national municipal voice.

To learn more, read the letter [here](#).

Western Canadian Municipal Associations Asking for Strengthened Support for Municipal Fire Departments

Western Canadian Municipal Associations (WCMA) has written to the Honourable Gary Anandasangaree, Minister of Public Safety Canada, to request **strengthened support for municipal fire departments through enhanced federal funding**. The WCMA calls on the Government of Canada to:

- Reinstatement of a modernized successor to the Joint Emergency Preparedness Program (JEPP),
- Include municipal fire service capacity-building as a priority within the renewed National Emergency Management Strategy,
- Develop federal cost-sharing for major fire service capital expenditures, and
- Support Canadian fire service standards that better reflect Canadian operational realities.

Municipal fire departments protect Canadians every day and serve as essential partners in Canada's emergency management system. Providing municipalities with the tools, equipment, and policy frameworks they need is one of the most effective investments governments can make in public safety, resilience, and affordability.

To learn more, read the letter [here](#).

RCMP Municipal Cost Distribution

The Police Act, 1991 provides the Ministry of Community Safety with authority to distribute costs to municipalities, and the formula utilized to calculate the rate payable is outlined in section 7.02(1) of *The Police Regulations*.

Historically, the percentage increase in per capita rates has been equal to the percentage increase approved for the RCMP budget in a given year. For 2026-27, this increase totaled 20.4%, which is significantly higher than in previous years, reflecting the provincial government's commitment to policing and public safety in Saskatchewan.

As a result of the magnitude of this increase, it has been determined that the corresponding increase in per capita rates will be **phased-in over a four-year period to provide municipalities with an opportunity to financially plan and manage the overall impact over an extended period**. Therefore, beginning in 2026-27, the percentage increase in the per capita rate that will be used to calculate costs to municipalities has been set at **5.1%**.

The 2026-27 rates are as follows:

- With a detachment: \$103.54 (increased from \$98.52 in 2025-26)
- Without a detachment: \$64.06 (increased from \$60.95 in 2025-26)

If you have any questions or concerns please contact SUMA's Advocacy Advisor responsible for community and public safety, Cheyenne Geysen, at communications2@suma.org.

MuniCast Season 11 Now Airing!

MuniCast is kicking off Season 11 with a familiar voice. We're excited to welcome back George Cuff, the very first guest ever featured on the podcast, for a timely discussion on governance, leadership, and long-term planning in municipal government. In this episode, ***S11:E1 What Makes a Great Municipal Leader? with George Cuff***, he draws on more than 50 years working with municipalities, Crown agencies, and public sector organizations across Canada. A former four-term Mayor of Spruce Grove and Past President of both the Alberta Urban Municipalities Association (now ABMunis) and the Federation of Canadian Municipalities, he brings extensive experience as both a practitioner and advisor.

George shares practical insights on everything from council priority setting and governance reviews to infrastructure planning and community engagement. He also explores how councils can improve meeting effectiveness, clarify roles and responsibilities, strengthen relationships with administration, and foster strong leadership at the council table. Whether you're newly elected or a seasoned municipal leader, this episode offers valuable advice for building stronger, more effective local governments.

George has recently shared a series of videos to support new councillors. [You can access the videos here.](#)

Webinar: Preparing for Bill 43: Building a Municipal Website Your Community Can Count On

Amendments introduced through Bill 43, the *Municipal Modernization and Red Tape Reduction Act*, will require all Saskatchewan municipalities to independently post their financial statements online by September 1, 2027. As communities prepare for this shift, having an accessible, reliable, and easy-to-manage digital presence is more important than ever.

Join us on **Tuesday, September 22** at **10:00 a.m.** for the webinar ***Preparing for Bill 43: Building a Municipal Website Your Community Can Count On***. In this webinar, participants will learn how to turn a legislative requirement into a digital win for their community. Designed for municipalities of all sizes, this session will cover modern website creation, intuitive template development, and best practices for posting financial statements and public documents online without adding hours of extra work for your staff.

Presented by Loop: Websites for Municipalities, this webinar provides practical, hands-on guidance for improving transparency and meeting Bill 43 requirements effortlessly. Drawing on years of experience building award-winning websites and apps for communities across Saskatchewan, the Loop team will share fresh approaches to website development, document management, and maintaining long-term compliance—all while building a digital space your residents can be proud of.

OTHER UPDATES

Canada's Rural and Remote Broadband Community Conference & Expo 2026 - Western Canada

Canada's Rural and Remote Broadband Community Conference & Expo is taking place in **Saskatoon** from **November 2 to 3**.

This year's conference theme is "The Infinite Build: Navigating the Perpetual Horizon of Connectivity." For a decade, the narrative across rural and remote Canada was clear: Connect the unconnected. We focused on the "finish line"—a specific speed, a specific map, a specific government target. But as foundational builds near completion, a new reality is setting in: In the digital age, there is no "done."

The Infinite Build is a call to action for the architects of Canada's remote economy. We are moving from the era of "Basic Access" into the era of "Infinite Demand." With the explosion of AI, the surge in satellite constellations, and the integration of remote sensing, the infrastructure we thought was the destination is actually just the first step.

If we remain complacent, we risk building tomorrow's bottlenecks today. This conference is where we stop chasing old targets and start defining the End Game.

2026 Paths to Prosperity Provincial Summit & Saskatchewan's Community Safety & Well-Being Forum

The **Saskatchewan Economic Development Alliance (SEDA)** and partners will host the 2026 Provincial Summit on **October 27 and 28**.

The **2026 Paths to Prosperity Summit** "Connecting the Dots" turns promising ideas into realistic initiatives by linking communities, innovators, funders, and community builders.

Saskatchewan's Community Safety and Well-Being Forum will take place before the Summit on October 26.

Establish the RCMP Heritage Centre as a National Museum

The **RCMP Heritage Centre** in Regina is seeking support to become Canada's newest national museum. **The Centre has been working toward national museum status since 2020 and has launched a petition urging the Government of Canada to complete the transition**, creating a museum that explores the full breadth of the RCMP's history, celebrates service and contributions, and creates space for diverse perspectives, reflection, and reconciliation. National museum status would mark an important milestone for Regina and Saskatchewan, establishing only the second national museum in Western Canada.

AI and the Sustainable Development Goals: Promise, Challenge, and Community Impact

Join Local Futures for a webinar on **September 23** to explore the **promises and challenges of AI for sustainable development**.

Artificial intelligence is changing how we approach the world's most pressing challenges and Canada has a distinct role to play in shaping that future. From advancing health and education to strengthening climate resilience and food security, AI holds real promise for accelerating progress toward the Sustainable Development Goals. But that promise comes with hard questions about equity, energy use, data governance, and who ultimately benefits.

Join us for a conversation that bridges theory and practice. Our speakers will share their perspectives on the promises and the challenges of AI for sustainable development, drawing on the technical realities of how these systems are actually built and how they can be put to work to advance community goals here in Canada and beyond.

Why the Targeted Sector Support (TSS) Funding Grant Matters

Municipalities often face resource constraints, administrative hurdles, and governance complexities for starting new or costly initiatives beyond normal operations of the municipality. **Targeted Sector Support (TSS) Grant Funding** directly addresses these issues by reviewing applications to fund **75% of these costs** with the intent to:

- **Encourage Inter-Community Collaboration:** Projects must involve at least one partner municipality or community, fostering regional unity and shared solutions.
- **Enhance Governance and Capacity:** Funding supports training, restructuring, and strategic planning that elevates municipal leadership and administration.
- **Drive Innovation in Service Delivery:** From emergency management plans to regional land use strategies, TSS-funded projects improve efficiency and responsiveness.

Each project can receive up to **75% of eligible costs, capped at \$100,000 maximum funding**, making it a high-impact, low-barrier opportunity for municipalities to innovate and grow.

TSS is a portion of Municipal Revenue Sharing (\$1.5 million per fiscal year) used to encourage inter-community collaboration, help build capacity and promote good governance in all Saskatchewan municipalities. The funds are used to support projects that help municipalities strengthen their core governance and administration responsibilities

The TSS Steering Committee is now accepting applications for funding under this program. **Applications are accepted at any time of the year and will be reviewed on a monthly basis.**

Please view the [intake guide](#) for details on the TSS initiative, project eligibility, and the application process. The online application portal can be accessed [here](#).
